

HAMILTON TIGERS

(Single) - 1905 TIGERS UNKNOWN ISSUER

The 1905 Tigers were undefeated (6-0) Champions of the ORFU but did not participate in any inter-union post season games. Fifteen players are pictured but no individual player names are available.

This is the first known postcard of a Canadian team that would eventually evolve into one of the classic nine CFL franchises.

(Series) - 1908 - 1909? TIGERS ONTARIO LEAVING

The first known postcard in this very attractive series dates from 1908 when the Tigers won the last Dominion championship before the Grey Cup began to be awarded in the following year. The second card exists with at least two different back variations as shown and only this card design has the player names as the back of the 1908 card is undetermined. The back of the 1908 card is undetermined.

1960 - 1961 TIGER-CATS TEAM ISSUE

In 1960 the Tiger-Cats switched to a smaller format for their media photos and the 1961 photos were issued in the exact same format so they are listed together here. Photos with the older style uniform with the three stripes on the shoulders can be dated to 1960 (as per the Moulton photo) and photos with the new style uniforms were taken in 1961 (as per the Taylor photo).

Topps used a handful of the new 1961 uniform photos for their Hamilton cards in the 1962 issue.

Where known the particular year of issue for the photo is listed after the player name. More players likely exist and photos known to exist but unconfirmed in this particular format are in light text. It appears that no photographer copyright stamp was used on these photo backs.

For the 1961 team photo the players and coaches are listed left to right and top row to bottom:

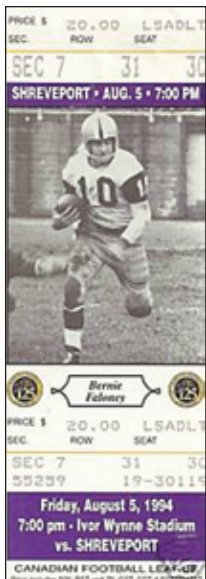

1962 - 1964 TIGER-CATS TEAM ISSUE

The Tiger-Cats subsequently retained their new 1961 style uniforms over the next three seasons during which time these media photos were produced. The photos are slightly longer than the previous issues, use a larger font and there is no dash before the position name (there are at least two different styles of these photos, one of which does not list the position at all). It has not been possible to differenti-

ate the exact years of each photo at this point.

Topps used a majority of these photos for their 1963 through 1965 card sets for Hamilton images.

More players likely exist and photos known to exist but unconfirmed in this particular format are in light text. It appears that no photographer copyright stamp was used on these photo backs.

(Single) - 1994 TIGER-CATS TEAM ISSUE

A fan poll was held through local Hamilton media outlets in conjunction with the team's 125th Anniversary, and a special poster card as a memento. The offensive players are listed in the left column below. Split into offense and defence (and coach and special teams players). Each player appears twice; Garney Henley and Earl Winfield. Each player is depicted on a vintage trading card but Cookie Gilchrist is not. The poster was packaged inside the Ti-Cats commemorative book: 1994 Season of Excellence 1869 - 1994. The book itself will be listed in the book section.

EARLY - MID 1960's ALOUETTES BANK OF MONTREAL

Another example of a Card Set that was created in large numbers and distributed to a large number of fans, yet there is substantial uncertainty surrounding it.

These printed pictures were inserts into the programs and were perforated for removal. The cards were definitely available in 1963 programs, and were almost certainly only available in either 1962, 1964 or both. In some cases items for players who played with the team in only 1962 exist, although these may have just appeared in the 1962 programs anyway. It is not even certain how many pictures were in each program or how many were expected, but it may have been for each player.

The actual cards used are a mixture of those taken by the team photographer Ed Birmingham and those taken specifically for the 1962 B/A promotion. The dates that might be attributable to the photograph negatives are in no way a guide to which year these program inserts were issued as different photos were mixed and matched in different seasons. Many players probably appeared

in multiple season's programs, and for some of those cards they are likely indistinguishable on the fronts, they might be distinguishable from the back contents. Other player's cards are different in different seasons.

Cards have been listed alphabetically with notes on differences where known and year if confirmed. Also listed separately are the four known double card configurations as they appeared in the programs, with program date where available. The set total applies to cards from all years together and the intact program pair format totals only apply to the known pairs. The pairs have been priced at roughly 110% of the separated singles and the pair listings are more to help determine which cards were issued when. The value of intact programs from these seasons will be catalogued in a future volume.

It may be that cards from different programs are slightly different in size, this is also unconfirmed. Sizes vary slightly from picture to picture in any case.

1962 Topps

Other items may exist. Any information on missing items would be appreciated.

EARLY 1960s ROUGH RIDERS TEAM ISSUE PORTRAIT

Concurrent with the previous set, the team also issued a series of portrait style photos that feature close ups of the players from roughly the waist up. Once again these have all been grouped into a single issue but were most likely produced over more than one of the years from 1961-1963. Similarly the light text items are confirmed to exist but not confirmed to be in this particular format (al-

though there are indications that they belong in this set).

Size is approximate and some variation is common. Two of these photos were the basis for the subsequently listed British Petroleum set and those two have been noted below. Certain of these photos were also used as models for the 1963 Multiple Brand potato chip caps, as were some of the action photos as well.

An interesting marketing concept was the associated group of ten vouchers that were redeemable for any ten game seats in any combination in specifically designated sections. The vouchers may have been part of the season ticket package or they may have been available for purchase separately.

The same player images as the season tickets were used on the vouchers but there are no player names. Since there were only nine

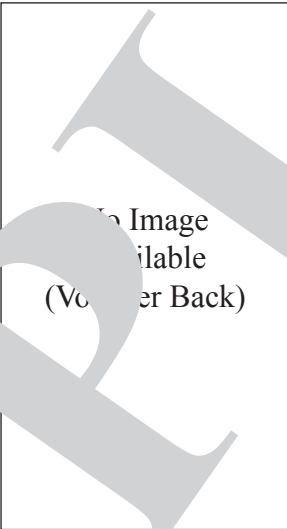

players in the ticket set and there were ten vouchers, it is unknown what or who was on the tenth voucher.

As the vouchers would have been used for tickets and thus destroyed by use, there is no availability for the intact sheet, as most that survive will be in that form. The images below do not contain the whole voucher front and those two players on the vouchers to have been visually verified.

2003 RENEGADES TEAM ISSUE

For the 2003 season the Renegades enhanced their ticket offerings with colour pictures and this time they features renegade players. Nine players appear along with a shot of Frank Clair Stadium during a game. All of the ticket subjects are known (because of the subsequently listed vouchers) but exactly which player is on which game date ticket is only known for three of the items.

It is assumed that the tickets were again issued in a cardboard folder but an example of this folder is not available. The intact folder (with tickets still attached) pricing reflects a 20% increase from the set price as this format would be scarcer. It is unknown if there were any promotional cards attached with the tickets in the folder.

Other items may exist & information on this set and associated item sizes is incomplete. Any information on missing items or with missing information would be appreciated.

(Single) - EARLY 1950's ARGONAUTS PFEIFER

This item is similar in nature to the late forties Krol fan photo but it appears that this is a printed picture and not a photograph. It was taken a few years later in varsity stadium as Pfeifer is wearing a uniform the team wore during their early fifties cup triumphs. Although produced for fans it is still an extremely rare piece listed as a single but other players are likely to exist.

EARLY 1950's ARGONAUTS TUROFSKY

These Turofsky photos were used as the basis for ten of the 1952 Parkhurst Toronto trading cards, the remaining eleven cards being sourced from an unatalogued portrait issue that has yet to surface. Since Billy Bass only joined the Argos in 1950 it would appear he was photographed in an alternate practice jersey as the Argos had adopted the striped jersey that season.

There are two different types of Turofsky copyright stamps known for these photographs. Player names are usually written on the back of the photos. In cases where photographs exhibit significant press cropping marks and border highlighting prices can be reduced from 50% to 75% off of those listed.

(Single) - 2006 ARGONAUTS TEAM ISSUE

A commemorative card issued to mark the exact game (September 4, 2006) when Damon Allen became the all time leading passer in the history of Professional football. The card must not have been issued until after the game as the final score is on the card.

The card is a limited edition but the available scan is too blurry to make out the number of cards that are available. It looks like less than 1000 in any case. It is also unknown if all of the cards were signed by Allen before distribution or not.

Pro-Football's All-Time Leading Passer Commemorative Card

Size 2 1/2" X 3 1/2"

Front Colour game action picture, player name, position, team logo, game date and time info

Back Colour posed picture, accomplishments, player name, listing of all-time leading passers, limited edition number, five B&W player images

2007 ARGONAUTS TEAM ISSUE

These tickets celebrate the Grey Cup championship seasons of the Argonaut franchise. While in some cases there are identifiable players on the tickets the writeups tend to deal with the actual event and since most of the tickets are not available the individual details have not been specified in the listings.

The game 1 ticket for the season home opener is double the width of the standard size ticket. Whether or not the pre-season ticket was

part of the series is not known. Championship seasons have been assigned to a ticket in chronological order but this has yet to be confirmed for most tickets.

There is no indication a collector's edition sheet was produced. The intact sheet pricing for an actual sheet issued to a ticket holder is a 40% increase as they would be considerably scarcer. Intact sheet pricing is unknown.
